

It takes a team...

...to touch 15,000 lives over a quarter of a century. This is especially true when you are providing life-saving cardiac care.

As we celebrate the 25th anniversary of cardiac surgery at

Cardiothoracic Surgeons T. Benton Washburn, M.D., Richard Clay, M.D., Evan Cohen, M.D. and Charles Newton, M.D.

Huntsville Hospital, we are pleased to recognize the surgeons, nurses and other dedicated professionals who helped pioneer cardiac surgery in North Alabama and who continue today to provide outstanding heart care for our community and region. You make a difference in the lives of families throughout the Tennessee Valley.
