Scheduling appointments

Office visits are by appointment only. Appointments for sick visits are almost always scheduled on a same-day basis, so please call as early as possible when you realize your child needs to see our doctors. Appointments for physicals, check-ups and well-child care should be scheduled early in the morning and early in the afternoon. When scheduling an appointment, be prepared to provide:

Current insurance information

Mailing address

Daytime/evening/cell phone numbers

On the day of your child's appointment, please allow time for registration. In addition, please provide the following items:

Current insurance card

Picture identification of the person accompanying your child, including parents

Method of payment (Any co-payment is due at the time of visit.)

Current medications or a complete list of medicines with doses, including all over-the-counter medications, herbs and vitamins

Canceling appointments

If it is necessary to cancel an appointment, please notify our office at least 24 hours in advance. This is an important courtesy to others waiting to schedule an appointment.

Telephone calls

All messages are given to the appropriate personnel as soon as possible, and every attempt is made to return telephone calls during regular work hours. There are times, however, when we cannot return calls within the same day they are received. Please tell the receptionist if your call is urgent, if it must be returned the same day or if a response is needed by a particular time. So that we can accurately reach you, please confirm your contact telephone numbers with the office.
