Experience. The Difference.

HH Physician Care - Madison

The board-certified physicians at HH Physician Care in Madison manage all aspects of adult's and children's general health care needs and provide seamless referrals to local specialists as needed. Trust our team to provide:

- Care for patients with symptoms and complaints (shortness of breath, chest pain, abdominal pain, back pain, etc.) who need help with diagnosing and treating their illness
- Coordination of care when surgeons or other specialized care providers are involved
- Preventative medicine screening care (scheduling mammograms, routine colon cancer screening evaluations, prostate cancer screening, cholesterol screening, blood pressure screening, pap smears, etc.)
- Collaborative care of patients with chronic medical illnesses (high blood pressure, diabetes, heart disease, emphysema, etc.) throughout various stages of their illness

Scheduling appointments

Consultation with a physician is by appointment only. Appointments may be scheduled by contacting the clinic directly. Be prepared to provide:

- Current insurance information*
- Mailing address*
- Daytime/evening/cell phone numbers*

On the day of your appointment, please allow time for parking and registration. In addition, please bring the following items to your appointment:

- Current insurance card*
- Method of payment*
- Current medications or a complete list of medicines with doses, including all over-the-counter medications, herbs and vitamins*

Immunizations and Injections

Visits only for immunizations or injections may not require a regular appointment with the physician. However, please call us at least one day in advance to schedule your injection so we can make sure to have adequate supplies and staff to assist you.

Canceling appointments

If it is necessary to cancel an appointment, please notify the clinic at least 24 hours in advance. This is an important courtesy to others waiting to schedule an appointment. You may be dismissed for repeated no shows.

Telephone calls

All messages are given to the appropriate personnel as soon as possible, and every attempt is made to return telephone calls during regular work hours. There are times, however, when we can not answer calls within the same day they are received. Please tell the receptionist if your call is urgent, if it must be returned the same day, or if a response is needed by a particular time. Again, so that we can accurately reach you, please confirm your contact telephone numbers with the clinic.

Test results

We will call you with all test results, whether the results are normal or abnormal. If you have not heard from us within one week, please call to check on your results. However, if you have an appointment scheduled within the next two weeks, we can discuss your results at that time.

Prescription refills

Refills should be requested during regular office visits.

Narcotics, sedatives and antibiotics are not called in on weekends or holidays. Refills for narcotics, sedatives and antibiotics may not be filled by the on-call physician.

Please allow 72 hours for refills to be completed.
